To Whom It May Concern:

Working in Property Management, I meet and have worked with a lot of Pest Control Companies. The past 5years I have used Atomic Pest Control. Atomic Pest Control has provided great customer service since the first day I hired them. Their staff is always friendly and professional when dealing with them on the phone and dealing with their service techs in person.

Atomic Pest Control has gone above and beyond to provide good service for me and the properties I have worked on. If I have ever needed them after hours or weekends they are more than happy to help.

I appreciate their monthly calls or drop-ins just to make sure we are happy and make sure there are no major issues. I would recommend them for any pest job you may need. If you have any further questions regarding Atomic Pest Control you can reach me at (480)322-1032.

Sincerely,

Carol Ann Cunningham
